Professional Statement:
Proficient web developer with skills in React and Database Development with additional full stack training through academia and Awesome Inc Bootcamp prepared to apply concepts and contribute to a team.

Education:
Awesome Inc, 2021
> Full Time Web Development Bootcamp with over 500 hours of hands-on training, gaining experience while building 10+ software projects in an Agile environment, using HTML, CSS, JavaScript, PHP, Laravel, React, Google Cloud, GitHub, and more.

Eastern Kentucky University, 2020
Bachelor of Science in Computer Science, GPA: 3.68

Project Experience:
Chat Now - Instant messaging application with a React & Bootstrap frontend and Laravel backend with Pusher installed to receive notifications when backend events were triggered. The project was created over the course of 3 weeks. The first week involved the creation of a minimum viable product with user stories and interface mockups and then the creation of a kanban board. That was followed by 2 one week coding sprints.
